

**DRAFT MEETING MINUTES  
COMMUNITY ADVISORY COMMITTEE MEETING  
THURSDAY, SEPTEMBER 21, 2023**

---

**Receive Geothermal Zone Update**

(2:13 p.m. - Video Time Stamp: 01:12:41)

CEO Syphers discussed the Lake County GeoZone Tour where seismic activity was a main discussion and he stated this was a good way to begin the Cloverdale Community Meeting regarding the GeoZone. He pointed to his op-ed in the Press Democrat and stated that SCP is trying to educate the public in the need for many forms of energy.

Member Hollinshead asked what the impacts were from the GeoZone and CEO Syphers responded that SCP had heard of seismic activity and air quality relating to natural gas. Chair Morris mentioned she attended the meeting and asked if there would be a draft set of principles. CEO Syphers said he would like input from the Committee. Member Hollinshead asked about water usage and CEO Syphers responded that there would be some initially but eventually it is a completely closed loop system.
