

Staff Report - Item 03

To: Sonoma Clean Power Community Advisory Committee

From: Ryan Tracey, Chief Strategy Officer
Geof Syphers, Chief Executive Officer
Miles Horton, Legislative Policy & Community Engagement Manager
Claudia Sisomphou, Director of Community & Governmental Relations

Issue: Receive Geothermal Opportunity Zone Update

Date: January 15, 2026

Background

The Geothermal Opportunity Zone (GeoZone) is SCP's initiative to secure affordable, reliable clean energy for our customers by building 600 megawatts of new geothermal power capacity in Sonoma and Mendocino Counties. This will eventually enable SCP to phase out its dependence on natural gas power plants for reliability. The Community Advisory Committee (Committee) meetings are a regularly scheduled public forum for the community to receive updates and provide input on the GeoZone. The updates provided to the Committee each month, and minutes from any discussion are posted on SCP's website at <https://sonomacleanpower.org/geozone-public-updates>. Staff incorporate any feedback received from the Committee presentation into the monthly updates to the Board of Directors. Additional background on the GeoZone can be found on the GeoZone webpage at <https://sonomacleanpower.org/geozone>.

No Updates - Placeholder for Community Input

Staff have no substantive updates on GeoZone for the Committee but are retaining the update on the agenda to allow an opportunity for community or Committee feedback on GeoZone. Staff are anticipating sharing a more detailed update on next steps for the GeoZone in the February Committee meeting.
