

Historical PG&E Added Fees 2014 - Current

PG&E Power Charge Indifference Adjustment Rates

(effective January 1, 2026)

Power Charge Indifference Adjustment (PCIA): The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by PG&E on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources.

PG&E Power Charge Indifference Adjustment Rates

(March 1, 2022 - May 31, 2022)

Power Charge Indifference Adjustment (PCIA): The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by PG&E on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources.

PG&E Power Charge Indifference Adjustment Rates

(effective July 1, 2019 - December 31, 2020)

The Power Charge Indifference Adjustment (PCIA) is a charge assessed by PG&E to cover generation costs acquired prior to a customer’s change in service provider. This fee is collected by PG&E and is effectively an “exit fee” assessed to customers which receive their generation services from another provider. PG&E assigns customers a “PCIA Vintage” based on the date they were enrolled in alternative service. Customers can find their vintage on the PG&E Electric Delivery Details page of their bill. These rates are updated each January by PG&E.

PG&E Power Charge Indifference Adjustment Rates

(Effective January 1, 2017 - October 23, 2017)

The Power Charge Indifference Adjustment (PCIA) is a charge assessed by PG&E to cover generation costs acquired prior to a customer's change in service provider. This fee is collected by PG&E and is effectively an "exit fee" assessed to customers which receive their generation services from another provider. PG&E assigns customers a "PCIA Vintage" based on the date they were enrolled in alternative service. Customers can find their vintage on the PG&E Electric Delivery Details page of their bill. These rates are updated each January by PG&E.

Customers enrolled in PG&E's Medical Baseline Allowance program are not subject to the PCIA fee.
