Save Energy. Earn Rewards.

Sign up and get \$25

Enroll to receive Alerts through Sonoma Clean Power's GridSavvy Rewards and earn \$2 for every kilowatt-hour of energy saved during hours of high electricity usage on the electric grid. There are no penalties if you don't reduce your usage, only rewards when you do! You'll also receive a \$25 check in the mail as an enrollment bonus while funding lasts. Join the over 11,000 SCP customers who are already participating in Alerts through GridSavvy Rewards, saving energy, reducing bills, and earning rewards.

Choose to receive SCP's energy-saving Alerts via text, email, or voice call. You may unsubscribe at any time. Sign up and learn more by visiting sonomacleanpower.org/earnrewards or by visiting SCP's Customer Center at 741 Fourth Street, Santa Rosa, CA 95404.

Powering Progress

Power Content Label reflects 2023 verified electric resources for SCP.

This information is required by the California Energy Commission to be mailed to any customer who received service from SCP in 2023 and/or is an active SCP customer. The generation data represents energy procured during 2023 and is provided in the "Annual Report to the California Energy Commission: Power Source Disclosure Program."

A significant portion of SCP's energy comes from clean, large hydroelectric power stations. Under California law, large hydroelectric power stations do not qualify as eligible renewable resources.

Percentages may not total 100% due to rounding.

600 EverGreen 400 200 2023 CA Utility		Large Hydroelectric	35.8%	0.0%	11.7%	
		Natural Gas	0.0%	0.0%	36.6%	
			Nuclear	0.8%	0.0%	9.3%
		2023 CA Utility	Other	0.1%	0.0%	0.1%
0		Average	Unspecified Power ²	12.1%	0.0%	3.7%
0			TOTAL	100.0%	100.0%	100.0%
Percentag	0%	0%				

¹The eligible renewable percentage above does not reflect RPS compliance, which is determined using a different methodology.

²Unspecified power is electricity that has been purchased through open market transactions and is not traceable to a specific generation source.

³Renewable energy credits (RECs) are tracking instruments issued for renewable generation. Unbundled renewable energy credits (RECs) represent renewable generation that was not delivered to serve retail sales. Unbundled RECs are not reflected in the power mix or GHG emissions intensities above.
