

August 2022 Joint Mid-Term Reliability RFP: Q&A

- 1. Will the Joint CCAs be considering offers for resources with a planned online date after June 1, 2024?** The Joint CCAs are open to offers for resources with a planned online date after June 2024, but our focus is on resources coming online by this date. We would also be open to resources coming online after this date if eligible bridge capacity were available from June 2024 until the planned online date, as defined in the MTR order.
