About Sonoma Clean Power (SCP)

As a community choice aggregator or “CCA,” SCP is a public agency and the default electricity provider for Sonoma and Mendocino counties. We source clean energy from renewable resources—geothermal, water, wind, solar, and biomass—and deliver our power to residents and businesses throughout our service territory. At Sonoma Clean Power, we’re invested in the communities in which we live and work. We deliver services that enhance quality of life through competitive pricing, improved air quality, and energy efficiency. By changing the way residents source and use energy, we’re able to deliver customer programs that make a difference in everyone’s life.

Powered by innovative thinking, Sonoma Clean Power was formed to provide a choice beyond for-profit, investor-owned utilities. Today, SCP is a model for community choice programs throughout California. By providing higher percentages of renewable energy that reduce greenhouse gas emissions, our customers are helping solve the climate crisis at a local level.

Summary Description

Persons working in this job class will work across the organization with Sonoma Clean Power (“SCP”) leadership and staff in some or all functions related to power supply planning, demand load forecasting, risk management, and regulatory and legislative policy. The individual in this position will develop significant subject matter expertise in SCP’s energy policy and will be required to work independently on various projects as they come up, including topical research, developing advocacy positions, commercial analysis & decision-making, and interfacing with stakeholders in policy related matters.

As policies are implemented, this position will have increasing and significant autonomy to explore novel solutions to problems facing SCP as a load-serving entity (LSE) with core mandates of reducing greenhouse gas emissions, maintaining competitive and stable electric rates, supporting economic development in Sonoma and Mendocino Counties, and meeting SCP’s obligations under our Board directed legislative and regulatory mandates. This position will develop and support advocacy of SCP’s interests in renewable project development including significant interaction with CAISO, CPUC, and CEC staff, as well as developers and transmission providers.

Want to be a part of our dynamic team? Visit www.sonomacleanpower.org to learn more about SCP and the differences we are making in our communities!

To apply, please email a cover letter, resume, and references as a single PDF to: jobs@sonomacleanpower.org.

THE SONOMA CLEAN POWER AUTHORITY IS AN EEO/ADA EMPLOYER
RESOURCE POLICY MANAGER
$160,000 - $210,000 annually

POSITION SUMMARY DESCRIPTION

Persons working in this job class will work across the organization with Sonoma Clean Power (“SCP”) leadership and staff in some or all functions related to power supply planning, demand load forecasting, risk management, and regulatory and legislative policy. The individual in this position will develop significant subject matter expertise in SCP’s energy policy and will be required to work independently on various projects as they come up, including topical research, developing advocacy positions, commercial analysis & decision-making, and interfacing with stakeholders in policy related matters.

As policies are implemented, this position will have increasing and significant autonomy to explore novel solutions to problems facing SCP as a load-serving entity (LSE) with core mandates of reducing greenhouse gas emissions, maintaining competitive and stable electric rates, supporting economic development in Sonoma and Mendocino Counties, and meeting SCP’s obligations under our Board directed legislative and regulatory mandates. This position will develop and support advocacy of SCP’s interests in renewable project development including significant interaction with CAISO, CPUC, and CEC staff, as well as developers and transmission providers.

REPORTING AND SUPERVISION

This role operates under the direct supervision of the Director of Regulatory Affairs. Additional guidance is provided by the Chief Executive Officer and the Chief Operating Officer on an as-needed basis. The responsibilities of this role may involve giving instructions to support staff and external consultants. While the position can be carried out remotely, it’s essential for the person to have convenient means of attending meetings held in the Sacramento area at CAISO and the CEC. Additionally, the individual should be capable of traveling one day per week to SCP headquarters in Santa Rosa and participating in industry events throughout the West.
ESSENTIAL JOB FUNCTIONS AND RESPONSIBILITIES

These job functions, in general terms, describe the type and level of work performed as well as the responsibilities of employees hired for this position. Management reserves the right to add, modify, change, or rescind the work assignments of any position and to make reasonable accommodations so that qualified employees can perform the essential functions of the job.

The Resource Policy Manager will:

- Work closely with Procurement, Planning & Analytics and Regulatory staff to ensure SCP’s policy position and development supports the strategy of SCP for procurement and procurement planning and is consistent with other SCP positions. Keep SCP staff abreast of important regulatory changes with potential impact to SCP’s portfolio and planning.

- Attend stakeholder meetings and convey SCP’s position in policy development. Build coalitions with other stakeholders. Develop and write policy development, providing comments, reply comments and other supporting documentation during the stakeholder process.

- Advocate for streamlining the FERC and CAISO interconnection and transmission planning processes, working with developers and transmission providers. Support SCP’s projects and interconnection queue position for transmission development. Provide subject matter expertise in SCP’s assessment of deliverability risk for prospective resources and supply portfolios.

- Organize and assemble meetings with key policy decision-makers and advocate SCP’s procurement and planning positions.

- Provide subject matter expertise in technical studies and long-term planning in the various regulatory and reliability entity procedures and processes.

- Represent SCP in procurement related policy meetings including but not limited to CalCCA policy meetings and tiger teams.

- Provide data and develop narrative for regulatory filings related to SCP’s procurement and planning activities including the RPS Procurement Plan, Integrated Resource Plan, RPS Compliance Report, and ad hoc data requests and work in coordination with Compliance staff managing the...
submittal of filings.

- Have a reliable means of transportation to the workplace, off-site events, meetings and conferences. Anticipated travel to Folsom and San Francisco on a regular basis.

- Have the ability to understand and adhere to all Personnel Rules and Internal Policies of SCP.

- Perform other duties as needed.

REQUIRED KNOWLEDGE, SKILLS AND ABILITIES

Knowledge and skills:

- Work with key staff and decision makers with regulatory agencies within and outside of California.

- Proficiency in using MS Office suite products, specifically Excel, Outlook, and Adobe Acrobat.

- Clear understanding of California’s Community Choice Aggregation (CCA) model.

- Knowledge of the goals, policies, purposes, and history of SCP.

- Excellent verbal and written communications skills.

Ability to:

- Write in a clear and convincing manner, developing data-based policy positions and compliance narratives.

- Speak in front of groups in public with persuasion and represent SCP’s views and position.

- Work effectively with transmission providers and developers. Strong industry relationships is a must.

- Work with complex data, decisions, reports, business practice manuals and tariffs.
REQUIRED QUALIFICATIONS

Any combination of experience and training that would likely provide required knowledge and abilities is qualifying. A typical way to obtain knowledge and abilities would be:

Education: Equivalent of a Bachelor’s degree from an accredited college or university with major course work in business, economics, engineering science, energy, statistics, or related field(s); AND,

Experience: Ten (10) years of increasingly responsible, relevant energy procurement and policy experience; experience with ISO/RTO issues and renewable project development preferred. Knowledge and personal contacts at CAISO preferred.

PHYSICAL AND WORKING CONDITIONS

The physical and mental demands described here are representative of those that must be met by employees to successfully perform the essential functions of this class. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential job functions.

Environment: Normal office environment with exposure to computer screens. Employees will interact with staff and/or public and private representatives in interpreting and enforcing the Authority’s policies and procedures. Some travel is required.

Physical: While performing the duties of this class, employees are regularly required to sit, walk, and stand; talk or hear, in person and by telephone; reach with hands and arms. Employees are occasionally required to walk, and stand for prolonged periods; stoop, bend, kneel and twist; and may lift up to 20 pounds. Employees must be able to communicate in person, in writing, and by telephone with Board members, management, coworkers, vendors, consultants, and with the public in face-to-face, one-to-one, and group settings. Position requires the ability to frequently travel to relevant California locations to meet with state agencies and law makers.

Vision: See in the normal visual range with or without correction; vision sufficient to read computer screens and printed documents; and operate assigned equipment.

Hearing: Hear in the normal audio range with or without correction.
**Mental:** While performing the duties of this class, the employee is regularly required to use written and oral communication skills; read and interpret data, information and documents; analyze and solve problems; observe and interpret situations; learn and apply new information or skills; perform highly detailed work; work on multiple concurrent tasks; work with frequent interruptions; work under intensive deadlines; interact with SCP management, Board, staff, vendors, the public, and others encountered during the course of work.

**COVID-19:** SCP strives to maintain a COVID-free workplace. To that end, being fully vaccinated is a condition of employment for all our employees unless a medical or religious exemption has been provided prior to the first day of employment.

*SCP actively works to provide an inclusive work environment, where people of different ethnicities, national origins, native languages, races, skin colors, sexes, genders, sexual orientations, ages, physical abilities, genetics, politics, religion, financial wealth and education feel welcome, safe and invited to fully participate at every level. SCP further seeks to contribute to a more inclusive and equitable society through our actions, our communication, our policies, and our investments. SCP expects all of its employees to contribute to these goals.*

**THE SONOMA CLEAN POWER AUTHORITY IS AN EQUAL EMPLOYMENT OPPORTUNITY (EEO) AND AMERICAN DISABILITIES ACT (ADA) EMPLOYER**
