**NOTES:**

**\*DAYLIGHT SAVING TIME ADJUSTMENT:** The time periods shown above will begin and end one hour later for the period between the second Sunday in March and the first Sunday in April, and for the period between the last Sunday in October and the first Sunday in November.

**\*\*HOLIDAYS:** Holidays, for the purpose of this rate schedule, are New Year's Day, President's Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving Day and Christmas Day. The dates will be those in which the holidays are legally observed.

**EverGreen- 100% Local Renewable Option**  
**EverGreen Premium**

Customers electing the EverGreen 100% local renewable energy service option will pay the otherwise applicable rate for CleanStart service option plus the following EverGreen energy charge.

All Usage\*                      CleanStart + \$0.025/kWh

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average home, this amounts to about \$13 per month more than SCP's default CleanStart service.

**NetGreen Net Surplus Compensation Rate (NSC)**  
**NSC Rate**

**Solar Billing Plan**

SCP's Solar Billing Plan Net Surplus Compensation (NSC) Rate\*, which is PG&E's 12-month Net Surplus Compensation Rate average for the calendar year preceding the cash out.

2025 Solar Billing Plan NSC Rate                      \$0.04165

**NetGreen**

SCP's NetGreen Net Surplus Compensation (NSC) Rate\*, which is PG&E's 12-month Net Surplus Compensation Rate average plus \$0.01/kWh for the calendar year preceding the cash out.

2025 NetGreen NSC Rate                      \$0.05165

\*By law, Solar Aggregation customers are not eligible to receive credit cash outs and credits are reset to zero annually.

**Other Rate Information**  
**PG&E Electric Rates**

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>.

**NOTES:**

\*DAYLIGHT SAVING TIME ADJUSTMENT: The time periods shown above will begin and end one hour later for the period between the second Sunday in March and the first Sunday in April, and for the period between the last Sunday in October and the first Sunday in November.

\*\*HOLIDAYS: Holidays, for the purpose of this rate schedule, are New Year's Day, President's Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving Day and Christmas Day. The dates will be those in which the holidays are legally observed.

**EverGreen- 100% Local Renewable Option**  
**EverGreen Premium**

Customers electing the EverGreen 100% renewable energy service option will pay the applicable rate for the CleanStart service option plus the following EverGreen energy charge.

All Usage\*                      CleanStart + \$0.025/kWh

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average small business, this amounts to about \$29 per month more than SCP's default CleanStart service.

**NetGreen Net Surplus Compensation Rate (NSC)**  
**NSC Rate**

**Solar Billing Plan**

SCP's Solar Billing Plan Net Surplus Compensation (NSC) Rate\*, which is PG&E's 12-month Net Surplus Compensation Rate average for the calendar year preceding the cash out.

2025 Solar Billing Plan NSC Rate                      \$0.04165

**NetGreen**

SCP's NetGreen Net Surplus Compensation (NSC) Rate\*, which is PG&E's 12-month Net Surplus Compensation Rate average plus \$0.01/kWh for the calendar year preceding the cash out.

2025 NetGreen NSC Rate                      \$0.05165

\*By law, Solar Aggregation customers are not eligible to receive credit cash outs and credits are reset to zero annually.

**Other Rate Information**  
**PG&E Electric Rates**

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>.

## EverGreen- 100% Local Renewable Option

### EverGreen Premium

---

Customers electing the EverGreen 100% local renewable energy service option will pay the otherwise applicable rate for CleanStart service option plus the following EverGreen energy charge.

All Usage*	CleanStart + \$0.025/kWh
------------	--------------------------

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average home, this amounts to about \$13 per month more than SCP's default CleanStart service.

## NetGreen Net Surplus Compensation Rate (NSC)

### NSC Rate

---

SCP's Net Surplus Compensation (NSC) Rate\*, which is PG&E's 12-month Net Surplus Compensation Rate average plus \$0.01/kWh for the calendar year preceding the cash out.

2024 NSC Rate	\$0.08888
---------------	-----------

\*By law, NetGreen Aggregation customers are not eligible to receive credit cash outs and credits are reset to zero annually.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>.

**NOTES:**

\*DAYLIGHT SAVING TIME ADJUSTMENT: The time periods shown above will begin and end one hour later for the period between the second Sunday in March and the first Sunday in April, and for the period between the last Sunday in October and the first Sunday in November.

\*\*HOLIDAYS: Holidays, for the purpose of this rate schedule, are New Year's Day, President's Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving Day and Christmas Day. The dates will be those in which the holidays are legally observed.

**EverGreen- 100% Local Renewable Option**  
**EverGreen Premium**

Customers electing the EverGreen 100% renewable energy service option will pay the applicable rate for the CleanStart service option plus the following EverGreen energy charge.

All Usage\*                      CleanStart + \$0.025/kWh

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average small business, this amounts to about \$29 per month more than SCP's default CleanStart service.

**NetGreen Net Surplus Compensation Rate (NSC)**  
**NSC Rate**

SCP's Net Surplus Compensation (NSC) Rate\*, which is PG&E's 12-month Net Surplus Compensation Rate average plus \$0.01/kWh for the calendar year preceding the cash out.

2024 NSC Rate                      \$0.08888

\*By law, NetGreen Aggregation customers are not eligible to receive credit cash outs and credits are reset to zero annually.

**Other Rate Information**  
**PG&E Electric Rates**

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>.

**EverGreen- 100% Local Renewable Option**  
**EverGreen Premium**

Customers electing the EverGreen 100% renewable energy service option will pay the applicable rate for the CleanStart service option plus the following EverGreen energy charge.

All Usage\*                      CleanStart + \$0.025/kWh

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average small business, this amounts to about \$29 per month more than SCP's default CleanStart service.

**NetGreen Net Surplus Compensation Rate (NSC)**  
**NSC Rate**

SCP's Net Surplus Compensation (NSC) Rate\*, which is PG&E's 12-month Net Surplus Compensation Rate average plus \$0.01/kWh for the calendar year preceding the cash out.

2024 NSC Rate                      \$0.08888

\*By law, NetGreen Aggregation customers are not eligible to receive credit cash outs and credits are reset to zero annually.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

## NOTES:

\*DAYLIGHT SAVING TIME ADJUSTMENT: The time periods shown above will begin and end one hour later for the period between the second Sunday in March and the first Sunday in April, and for the period between the last Sunday in October and the first Sunday in November.

\*\*HOLIDAYS: Holidays, for the purpose of this rate schedule, are New Year's Day, President's Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving Day and Christmas Day. The dates will be those in which the holidays are legally observed.

## EverGreen- 100% Local Renewable Option

### EverGreen Premium

---

Customers electing the EverGreen 100% renewable energy service option will pay the applicable rate for the CleanStart service option plus the following EverGreen energy charge.

All Usage\*                      CleanStart + \$0.025/kWh

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average small business, this amounts to about \$29 per month more than SCP's default CleanStart service.

## NetGreen Premium Net Surplus Compensation Rate (PNSC)

### PNSC Rate

---

SCP's Premium Net Surplus Compensation (PNSC) Rate\*, which is double PG&E's 12-month Net Surplus Compensation Rate average for the calendar year preceding the cash out.

2023 PNSC Rate              \$0.10066

\*By law, NetGreen Aggregation customers are not eligible to receive credit cash outs and credits are reset to zero annually.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

## Commercial Rates

### Agricultural, Commercial, Street Light & Traffic Control

(October 1, 2022 - January 31, 2023)

These rates represent the cost for energy generation only. The cost for transmission and distribution are included in the PG&E rate. See last page of this document for further explanation.

**Current Tariffs** (hyperlinked below)

**CleanStart** SCP's standard service

**EverGreen** SCP's premium, 100% local, renewable service

2022 PNSC Rate              \$0.06259

\*By law, NetGreen Aggregation customers are not eligible to receive credit cash outs and credits are reset to zero annually.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

# CleanStart Rate Schedule Residential Rates

(July 1, 2022 - January 31, 2023)

These rates represent the cost for energy generation only. The cost for transmission and distribution are included in the PG&E rate. See last page of this document for further explanation.

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

# CleanStart Rate Schedule Commercial Rates

## Agricultural, Commercial, Street Light & Traffic Control

(July 1, 2022 - September 30, 2022)

These rates represent the cost for energy generation only. The cost for transmission and distribution are included in the PG&E rate. See last page of this document for further explanation.

## EverGreen- 100% Local Renewable Option

### EverGreen Premium

---

Customers electing the EverGreen 100% renewable energy service option will pay the applicable rate for the CleanStart service option plus the following EverGreen energy charge.

All Usage\*                      CleanStart + \$0.025/kWh

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average small business, this amounts to about \$29 per month more than SCP's default CleanStart service.

## NetGreen Premium Net Surplus Compensation Rate (PNSC)

### PNSC Rate

---

SCP's Premium Net Surplus Compensation (PNSC) Rate\*, which is double PG&E's 12-month Net Surplus Compensation Rate average for the calendar year preceding the cash out.

2022 PNSC Rate              \$0.06259

\*By law, NetGreen Aggregation customers are not eligible to receive credit cash outs and credits are reset to zero annually.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

\*By law, NetGreen Aggregation customers are not eligible to receive credit cash-outs and credits are re-set to zero annually.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

# CleanStart Rate Schedule Residential Rates

(April 1, 2021 - March 31, 2022)

## EverGreen- 100% Local Renewable Option

### EverGreen Premium

---

Customers electing the EverGreen 100% renewable energy service option will pay the applicable rate for the CleanStart service option plus the following EverGreen energy charge.

All Usage*	CleanStart + \$0.025/kWh
------------	--------------------------

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average small business, this amounts to about \$29 per month more than SCP's default CleanStart service.

## NetGreen Premium Net Surplus Compensation Rate (PNSC)

### PNSC Rate

---

SCP's Premium Net Surplus Compensation(PNSC) Rate\*, which is double PG&E's 12-month Net Surplus Compensation rate average for the calendar year preceding the cash out.

2022 PNSC Rate \$0.06259

\*By law, NetGreen Aggregation customers are not eligible to receive credit cash-outs and credits are re-set to zero annually.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

# CleanStart Rate Schedule Agricultural Rates

(April 1, 2021 - March 31, 2022)

These rates represent the cost for energy generation only. The cost for transmission and distribution are included in the PG&E rate. See last page of this document for further explanation.

## EverGreen- 100% Local Renewable Option

### EverGreen Premium

---

Customers electing the EverGreen 100% renewable energy service option will pay the applicable rate for the CleanStart service option plus the following EverGreen energy charge.

All Usage\*      CleanStart + \$0.025/kWh

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average small business, this amounts to about \$29 per month more than SCP's default CleanStart service.

## NetGreen Premium Net Surplus Compensation Rate (PNSC)

### PNSC Rate

---

SCP's Premium Net Surplus Compensation(PNSC) Rate\*, which is double PG&E's 12-month Net Surplus Compensation rate average for the calendar year preceding the cash out.

2022 PNSC Rate \$0.06259

\*By law, NetGreen Aggregation customers are not eligible to receive credit cash-outs and credits are re-set to zero annually.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

# CleanStart Rate Schedule Residential Rates

(February 1, 2021 - March 31, 2021)

These rates represent the cost for energy generation only. The cost for transmission and distribution are included in the PG&E rate. See last page of this document for further explanation.

Customers electing the EverGreen 100% renewable energy service option will pay the applicable rate for the CleanStart service option plus the following EverGreen energy charge.

All Usage*	CleanStart + \$0.025/kWh
------------	--------------------------

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average small business, this amounts to about \$29 per month more than SCP's default CleanStart service.

## NetGreen Premium Net Surplus Compensation Rate (PNSC)

### PNSC Rate

---

SCP's Premium Net Surplus Compensation(PNSC) Rate\*, which is double PG&E's 12-month Net Surplus Compensation rate average for the calendar year preceding the cash out.

2021 PNSC Rate \$0.05240

\*By law, NetGreen Aggregation customers are not eligible to receive credit cash-outs and credits are re-set to zero annually.

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

# CleanStart Rate Schedule Residential Rates

(July 1, 2020 - January 31, 2021)

These rates represent the cost for energy generation only. The cost for transmission and distribution are included in the PG&E rate. See last page of this document for further explanation.

## EverGreen- 100% Local Renewable Option

### EverGreen Premium

---

Customers electing the EverGreen 100% renewable energy service option will pay the applicable rate for the CleanStart service option plus the following EverGreen energy charge.

All Usage*	CleanStart + \$0.025/kWh
------------	--------------------------

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average small business, this amounts to about \$29 per month more than SCP's default CleanStart service.

## NetGreen Premium Net Surplus Compensation Rate (PNSC)

### PNSC Rate

---

SCP's Premium Net Surplus Compensation(PNSC) Rate\*, which is double PG&E's 12-month Net Surplus Compensation rate average for the calendar year preceding the cash out.

2021 PNSC Rate \$0.05240

\*By law, NetGreen Aggregation customers are not eligible to receive credit cash-outs and credits are re-set to zero annually.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

# Residential Rates

(March 1, 2020 - June 30, 2020)

These rates represent the cost for energy generation only. The cost for transmission and distribution are included in the PG&E rate. See last page of this document for further explanation.

## EverGreen- 100% Local Renewable Option

### EverGreen Premium

---

Customers electing the EverGreen 100% local renewable energy service option will pay the otherwise applicable rate for CleanStart service option plus the following EverGreen energy charge.

All Usage\*      CleanStart + \$0.025/kWh

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average home, this amounts to about \$13 per month more than SCP's default CleanStart service.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

# Commercial Rates

## Agricultural, Commercial, Street Light & Traffic Control

(March 1, 2020 - June 30, 2020)

These rates represent the cost for energy generation only. The cost for transmission and distribution are included in the PG&E rate. See last page of this document for further explanation.

**PG&E Electric Rates**

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

# Residential Rates

(September 1, 2019 - February 29, 2020)

## EverGreen- 100% Local Renewable Option

### EverGreen Premium

---

Customers electing the EverGreen 100% renewable energy service option will pay the applicable rate for the CleanStart service option plus the following EverGreen energy charge.

All Usage*	CleanStart + \$0.025/kWh
------------	--------------------------

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average small business, this amounts to about \$29 per month more than SCP's default CleanStart service.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

Customers electing the EverGreen 100% local renewable energy service option will pay the otherwise applicable rate for CleanStart service option plus the following EverGreen energy charge.

All Usage\*              CleanStart + \$0.025/kWh

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average home, this amounts to about \$13 per month more than SCP's default CleanStart service.

## Other Rate Information

### PG&E Electric Rates

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

## EverGreen - 100% Local Renewable Option

### EverGreen Premium

---

Customers electing the EverGreen 100% local renewable energy service option will pay the otherwise applicable rate for CleanStart service option plus the following EverGreen energy charge.

All Usage\*      CleanStart + \$0.025/kWh

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average home, this amounts to about \$13 per month more than SCP's default CleanStart service.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.

## EverGreen - 100% Local Renewable Option

### EverGreen Premium

---

Customers electing the EverGreen 100% local renewable energy service option will pay the otherwise applicable rate for CleanStart service option plus the following EverGreen energy charge.

All Usage\*      CleanStart + \$0.025/kWh

\*EverGreen costs an additional 2.5 cents per kilowatt-hour in addition to SCP's standard CleanStart rates. For the average home, this amounts to about \$13 per month more than SCP's default CleanStart service.

## Other Rate Information

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP

### PG&E Electric Rates

---

SCP does not provide a listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <https://www.pge.com/tariffs/index.page>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to SCP customers.
