2. RFI Overview

2.1. RFI Purpose

SCP is seeking to solicit information on wind, geothermal, and emerging technology projects in Cluster 16 and to provide those projects an opportunity to receive Commercial Interest Points from SCP under the Interconnection Process Enhancements. Proposals offered into this RFI will be evaluated for their ability to meet SCP portfolio targets in accordance with the terms of this RFI as based on the criteria in section 6.2 below.

2.2. Eligible Resources, Products Sought and Preferred Terms

Eligible Resources	Wind, geothermal, or emerging technology resources in CAISO Cluster 16.
Project Location	Within CAISO.
Project Attributes	Any contract made pursuant to this RFI may also include all associated Capacity, Energy, Environmental Attributes/Renewable Energy Credits (RECs), and Ancillary Services associated.

Delivery Term	Preference is for a ten-year term or longer.
Price	SCP will not require pricing in the initial submission. Instead, SCP requests a qualitative and quantitative comparison with the resource specific cost assumptions used in Appendix F, incorporating cost factors like site control, supply chain agreements, estimated interconnection cost, financing, and permitting.

The foregoing is not intended, and should not be construed, as an exhaustive listing of important commercial terms for any agreement resulting from this RFI. Please refer to Appendix C and the sections below for other relevant commercial provisions or considerations.

3. RFI Schedule

The RFI Schedule below sets out important dates for respondents interested in participating in this RFI. This Schedule is subject to change. Notice of any change to the RFI Schedule will be posted on SCP’s Website.

4. RFI Questions

Respondents and other interested persons are encouraged to submit questions about this RFI to the RFI Administrator (using the contact information provided above in section 1.5). All questions regarding this RFI must be submitted by email. Interested persons are requested to submit questions as promptly as possible to ensure the timely receipt of SCP’s response.

Subject to SCP consideration of the confidentiality concerns, SCP intends to post all questions submitted by respondents, as well as SCP responses to those questions, on SCP’s website. Questions will be posted anonymously, to shield the identity of respondents who posed the questions. SCP’s objective in posting questions and answers is to afford respondents equal access to information potentially relevant to their proposals. Respondents are urged to submit RFI questions to SCP as early as possible, in consideration of the proposal submission deadlines. SCP expects to provide answers only to questions posed on or before July 16th, 2026 and that are specific to an actual proposal submission issue. SCP may fail to post or answer any questions in their sole discretion.

5. Proposal Submission

The Proposal submission process requires each respondent to submit to SCP, using the contact information in section 1.5, responses to Appendix A and B (collectively referred to as the “Proposal Package”), to have its proposal(s) evaluated under this RFI. Under the current schedule, respondents must submit a completed Proposal Package by 5:00 p.m. PPT on July 23rd, 2026.

Respondents will each bear the risk of any failure of respondent to submit the completed Proposal Package by the required deadline as required by this RFI. Proposals for which respondent does not submit all agreements, information, and material as required by this RFI may be considered non-responsive and may be eliminated from consideration. Responsive proposals are those which are deemed conforming to all requirements listed in this RFI document. SCP may waive any irregularities or defects in their sole discretion.

All proposals must be submitted in email form with the appropriate attached documents to the following email address:

procurement@sonomacleanpower.org

6. Proposal Package Review and Evaluation

6.1. Proposal Package Requirements

The following is a list of requirements for Proposal Packages to be considered compliant and eligible in this RFI process:

- Proposal Package must be received by 5 p.m. PPT on July 23rd, 2026
- Proposal Package must contain Appendix A, and B
- All portions of Proposal Package must be received in the appropriate digital formats – pdf for narrative documents and Excel spreadsheets for the associated data templates.
- All associated data templates must be completed satisfactorily and provided with the Proposal Package. It is the duty of the proposer to contact SCP for clarification regarding completion of data templates and Executive Summary. Incomplete templates are grounds for non-consideration of a Proposal Package.
- After receipt of Proposal Package, SCP may contact respondents to request clarification about unclear portions of proposals. Respondents will have a maximum of 3 days to respond back to SCP or the Proposal Package will be removed from consideration.

6.2. Review, Evaluation and Shortlisting Process

Proposal Package will be modeled to yield a final, in-depth understanding of expected performance. The resources that effectively meet the standards of SCP will be shortlisted and contacted for negotiation of Exclusivity Agreements. Proposal Packages will be reviewed and evaluated based on the following standards:

- **Location**
 - TPD eligible resources are preferred, but Energy Only resources will be considered
 - Proximity to SCP
 - Scope of expected upgrades
 - Interconnection cost estimates
- **Technology**
 - Fit with SCP's [IRP](#)
 - Resource diversity
 - Resources that align with SCP Board of Director [policies](#) and authorized portfolio characteristics.
- **Project Viability**
 - Viability of factors including, but not limited to, proposed commercial operation date (“COD”), construction timeline, permitting, and status of site control will be evaluated
- **Respondent Experience**
 - Respondents will be evaluated for experience as a company and/or based on the experience of the members of the project team. Experience with the CAISO interconnection process and permitting will be critical.
 - Credit assessment
- **Project Size**
 - Consideration of partial or full output

6.3. Notification of Results and Commercial Negotiations

After the completion of the review and evaluation of the Proposal Packages, the RFI Administrator will communicate to each respondent the status of its proposal(s). As noted, SCP expects to negotiate the final terms of an Exclusivity Agreement with respondent(s) on the Shortlist.

Placement of a proposal on the shortlist, does not constitute or indicate acceptance by SCP of any proposal, any term thereof, or any related contract term. Without limiting Appendix E, SCP (i) has no obligation and make no commitment of any kind to enter into a transaction with any respondent, including a respondent with a proposal on the shortlist, or to be bound by any term proposed by respondent, and (ii) has no obligation or liability with respect to a transaction or arising out of this RFI except as may be expressly set forth in a fully executed Exclusivity Agreement.

Upon respondent(s) being shortlisted, SCP and respondent will enter negotiations for an agreement of exclusivity (“Exclusivity Agreement”) for the project(s).

7. Supplier Diversity

SCP issues this Request for Information (RFI) solicitation to solicit information on Cluster 16 projects and to provide those projects an opportunity to receive Commercial Interest Points from SCP under the Interconnection Process Enhancements. All qualified organizations are encouraged to respond, including minority-owned and women-owned business entities.

SCP is an equal opportunity entity. All responses to this solicitation will be evaluated under the same criteria. No preference will be given to an applicant regardless of the applicant owner's race, gender, ethnicity, or national origin. Pursuant to Proposition 209 (1996) (Article I, Section 31 of the California Constitution), a government entity such as SCP is prohibited from discriminating against or granting preferential treatment to any individual or group on the basis of race, sex, color, ethnicity, or national origin in the operation of public employment, public education, or public contracting.

RFI respondents that execute a contract with SCP will be required to complete a supplier diversity questionnaire. SCP asks that respondents refrain from directly or indirectly providing supplier diversity information when replying to an RFI. SCP will send the questionnaire after a contract is executed. As a public agency and consistent with state law, SCP will not use any such provided information in any part of its decision-making or selection process. Rather, SCP will use that information solely to comply with California Public Utilities Commission (CPUC) reporting requirements. Pursuant to Public Utilities Code §§ 8281-8286, CPUC requires each of SCP to submit annual detailed and verifiable plans for increasing women-owned, minority-owned, disabled veteran-owned, persons with disabilities-owned and LGBT-owned business enterprises' procurement. Consistent with the California Public Utilities Code and State policy objectives, SCP will collect information regarding supplier diversity and labor practices from project developers and their subcontractors regarding past, current and/or planned efforts and policies.

Certification creates an opportunity for businesses to be more visible and easier to communicate contracting opportunities. SCP encourages all respondents that are women-owned, minority-owned, disabled veteran-owned, persons with disabilities-owned and LGBT-owned businesses to become certified with the CPUC Supplier Diversity Program. This certification is voluntary and cannot be used as a criterion for solicitation evaluation. For information on the certification process and requirements, please visit CPUC's Supplier Clearinghouse. Alternatively, businesses can certify as a small business or a disabled veteran-owned business through the Department of General Services Certification program.

8. Miscellaneous RFI Matters

Without limiting the generality of Appendix E, SCP reserves the right to withdraw, suspend, cancel, or terminate this RFI, or to modify any term of this RFI, including, without limitation, any term concerning the RFI schedule (including any date), at any time in its sole discretion. SCP will endeavor to notify all participants of any such withdrawal, suspension, cancellation, termination, or modification made prior to the submittal deadline and to post notice of any such action on SCP's website.
