

Solar Billing Plan Annual Cash Out Rate

SCP's cash out period is spring to spring. SCP's net surplus compensation (NSC) rate is set at PG&E's 12-month net surplus compensation (NSC) rate average for the calendar year preceding the cash out.

[For more information on PG&E's NSC rate please visit pge.com.](http://pge.com)

Year	Monthly Credits	Cash Out Process	Annual Cash Out Rate
2026	The value of this energy is set by the California Public Utilities Commission (CPUC) and depends on the availability of energy throughout the year. These values vary by day, month and season	Customers that over-generated in kilowatt-hours annually during the cash out period will be paid at SCP's NSC/kWh.	Net Surplus Compensation Rate: \$0.03079
